

Pet Portrait Projects

are Top Priority for Versatile Artist MJ McFalls

Problem: MJ is dealing with a costly medical problem.

Solution: She uses her God-given talent to create a beautiful portrait of your pet as a means of raising funds for this procedure. You supply the digital photo of your pet. MJ uses the photo as a reference and creates a beautiful life-like portrait for a flat fee of \$100. Sculpture is also available for an additional cost.

The idea has caught fire since the "\$100 pet portrait" promotion started. Since mid-2017, MJ has generated over \$17,000 in pet portrait and sculpture business. Perhaps she could immortalize your pet next.

Most clients own dogs, but the orders have included horses, a goat, cats, and other assorted animals. MJ is an equal opportunity portrait painter and sculptor. Yes she is still accepting orders. Contact her for details at 717-269-5170 or send a digital photo of your pet to artbymjmcfalls@gmail.com.

When it comes to versatility in art presentation, MJ sets a high bar. We encourage you to see this for yourself on her website, www.mjmcfalls.com or her facebook page - art by mj mcfalls.

MJ sums it like this. "If someone asks me if I'm a portrait artist, I tell them that I'm an artist that happens to do portraits", MJ says. "I also happen to do pottery, murals (check out her work at the Allen Theater in Annville), calligraphy, caricatures, oil painting, sculptures, and who knows what else.
